

Notes on CHAC accounts 2023-24

The club continues to be financially sound.

The surplus for the year of £8,700 was slightly higher than the previous year.

Income is principally from subscriptions and track fees, and these increased as the membership increased.

EA affiliation fees, which the club again paid on athletes' behalf, rose to almost £6,700.

Equipment purchases were also higher, the main item being our gazebos at over £2,000.

A big reduction in the cost of coach hire was the biggest single contributor to the increased surplus.

On the balance sheet, cash and deposits are the main asset, now standing at around £68,000.
